

In one form

I put 2 any fields inside

The screenshot shows the Joomla Component Configuration interface. At the top, there are tabs for Administration, Site, Intro, Contenu, Configuration, Champs (which is selected), and Template. Below the tabs, there are buttons for Vues, Options, and a lock icon. On the left, there's a sidebar with icons for adding (+), moving up (^), moving down (^), and deleting (-). The main area is titled 'Construction (pour le formulaire d'administration)'. It lists fields under 'Intitulé' and 'Variation'. The 'Variation' dropdown for each field is set to 'Par défaut'. The fields listed are: # MAINBODY, Article Title (Texte), Article Category Id (JForm - Catégorie), # TOPBODY, and # BOTTOMBODY.

after in « Template » in any position (Administration, Site, Intro or Content), I can add « Class root »

and in the code I have :

```
--><div id="cck1r" class="ClassAdminTemplate cck-f100 cck-pad-8">
```

The image contains two screenshots of the Joomla Component Configuration interface, separated by a horizontal line.

Top Screenshot: This screenshot shows the 'Template' tab selected. Red arrows point from the 'Champs' tab at the top to the 'Template' tab, and from the 'Class root' field in the 'CSS' section to the 'Template' tab. The 'Template' tab is highlighted in blue. Other tabs like Administration, Site, Intro, Contenu, Configuration, and Options are visible but not selected.

Bottom Screenshot: This screenshot shows the 'Site' tab selected. Red arrows point from the 'Vues' and 'Options' tabs at the top to the 'Site' tab, and from the 'Class root' field in the 'CSS' section to the 'Site' tab. The 'Site' tab is highlighted in blue. Other tabs like Administration, Configuration, Champs, and Template are visible but not selected.
